

FINANCIAL INFORMATION

Prescription orthotics are a proven medical treatment for many conditions affecting the foot and leg. Orthotics are a cost effective treatment to correct abnormal forces that cause pain and deformities.

Often, the use of orthotics can eliminate the need for long term drug therapy, physical therapy, or surgical correction. Orthotics are covered by many insurance plans as therapeutic and preventative medical devices.

All payments for orthotics are the sole responsibility of the patient.
Any insurance coverage is a contract between you and your insurance carrier.

It is your responsibility as the patient to confirm whether or not your insurance carrier covers prescription orthotic devices and whether they cover the full amount. If your carrier does cover orthotic devices, we will be glad to assist you in billing your insurance, or with certain carriers, bill them for you.

Patient Name: _____ Diagnosis code: ___736.79_____
